Atlanta, GA | [Gmail](#) | [718-308-1578](tel:718-308-1578) | <https://www.linkedin.com/in/gregory-o-williams-22361b1b4/> | [GitHub](#) | [Portfolio](#)

I am a Full Stack Web Developer, currently working in aviation, specializing in airport operations. I completed the Columbia Engineering Full Stack Web Development Bootcamp, where I earned a certificate. Technology excites me, and I use that as the fuel to learn and develop my skills in creating interesting projects from a mere idea to full deployment. I enjoy teamwork, and have done several collaborations in web development that have exposed me to the intricacies of coding with others. With technology continuously changing, I strive to stay updated with the latest trends and tools, to expand my knowledge.

EDUCATION

Certificate, Full Stack Web Development - Columbia Engineering | September 2023

TECHNICAL SKILLS

Full-Stack Development, JavaScript ES6+, Node, React, SQL, NoSQL, Express, MERN, jQuery, HTML, CSS3, Handlebars, Bootstrap, GraphQL, Debugging, Object-Oriented Programming, Version Control with Git

PROJECTS

Productivity-pal | <https://github.com/GregNasir/productivity-pal> | <https://glacial-thicket-98751-e4d1051b20e4.herokuapp.com/login>

- Productivity-Pal was conceptualized and created by a team of four developers. It is a todo app that allows users to create, read, update and delete tasks. They can also sign up, and save tasks under their account.

HappenHub | <https://github.com/GregNasir/happenhub> | <https://happenhubsearch-a6304aac1562.herokuapp.com/>

- Happenhub is a MERN full-stack project. Written with JavaScript, it utilizes several tools to achieve full functionality. This includes but is not limited to MongoDB, Express, React, Node, GraphQL, HTML, and CSS. This webpage allows users to search for events they would like to attend. Another feature available is for visitors to create account and save their events.

Baseball_statsandodds | https://github.com/GregNasir/baseball_statsandodds | https://jako0320.github.io/baseball_statsandodds/

- This baseball webpage provides users the opportunity to check current stats and odds for the ongoing MLB season. Current stats and odds are attained using a web API. The project was created by a team of three web developers, using various web development tools, centered around JavaScript and its powerful libraries.

lets-buy-online-ecommerce-backend | <https://github.com/GregNasir/lets-buy-online-ecommerce-backend>

- Using the **sequelize** module and MySQL as a base, this back-end project supports an e-commerce site, which stores merchandise. This allows the user to create, update and delete data, while providing a unique id for each.

PROFESSIONAL EXPERIENCE

JetBlue Airways, Atlanta, GA
Acting Supervisor

May 2017 - Present

- Primary contact for operational needs.
- Lead onboarding and training of new employees.

- Lead integration and troubleshooting of new operating systems as needed.
- Develop and implement new procedures for handling customer complaints, which resulted in a decline in time taken to process inquiries.
- Organized and oversaw logistics of operations team consistently awarded for improving user experience.
- Regularly pursue new training to bolster current knowledge and acquire new skills associated with airport operations.
- Report and provide operational feedback and performance to leadership either through verbal or written means of communication.
- Commended for initiative, persuasiveness, intense customer focus, and dependability in performance evaluations.
